“SAVE FIFE’S PUBLIC SERVICES”

23 April 2011

10.30am

Kirkcaldy Town House

The future of Fife’s public services is under threat like never before. Our schools, hospitals, police and social work services are at breaking point due to the massive cuts in public spending.

The people of Fife didn’t cause this crisis and they shouldn’t be left to pay for the bankers’ mistakes.

Your children are facing cuts in their schools and colleges; your care homes are facing privatisation and your communities face losing vital local services. We believe the people of Fife deserve better.

Don’t let the cuts destroy your community. Join the thousands of other people in Fife who believe there is an alternative for the launch of our SAVE FIFE’S PUBLIC SERVICES campaign on 23 April.

If we work together, we can save Fife’s valuable public services.
