

CONSTRUCTION SAFETY CAMPAIGN

AFFILIATE TO THE CAMPAIGN

The work of the CSC is needed now more than ever before as we continue to see more construction deaths however, we cannot survive without finance. We are not grant funded by any local authority and rely solely on donations and affiliations from workers, individuals and organisations that believe there is a need for our campaign.

ASBESTOS

Despite Asbestos now being recognised as the biggest workplace killer, the Health and Safety Executives proposals on the Control of Asbestos at Work regulations do not deal with the problems of the 3.2 million Tons of the stuff that is already installed in the UK. There is no requirement for non domestic properties to be surveyed and no recommendation for the removal of all asbestos from the UK.

CANCERS

It comes as no surprise to us when recent research has revealed that Construction had the highest of all cancer rates caused by work activities. These latest findings are in addition to what we already know about the 250,000 workers who will die because of exposure to asbestos.

DAMAGE DONE INCREASES

The HSE say that there has been a massive rise in stress, repetitive strain injuries (RSI) and back strain - in total causing over millions of days of lost work every year, radical action is required now, to prevent the employers from continuing to cause this suffering.

AFFILIATE TO OUR CAMPAIGN

Affiliation is invited from all organisations, Joint Shop Stewards Committees, Trade Union Branches and Organisations, Political Parties, voluntary and community groups.

Up to	150 member's	£10	1 Delegates per organisation
